

Major Initiative (MI) Three:

The Post-9/11 GI Bill provides education benefits for service members and their families. With its increased benefits and complexity, the GI Bill requires extensive modifications to existing processing, procedures, and IT systems. The long-term implementation strategy will result in a fully-automated claims processing IT system that will be used as a model to migrate all VA educational programs onto an integrated, sustainable platform.

Description: This is a view of the systems, services, and organizations that support MI 3 in the context of automating GI Bill benefits. The primary systems and services with respect to the scope of MI 3 are internal systems, all other non-VA agencies, systems and services are considered external.

Portfolio/Division: Benefits
